WHITE RADIO SIGNS DISTRIBUTION AGREEMENT WITH SOLECTECK

Burlington, Ontario (Nov 9, 2009) – White Radio today announced that it is partnering with Solectek a leading manufacturer of wireless broadband equipment based in San Diego, CA, to aggressively pursue the Canadian WiMAX and wireless backhaul markets.

White Radio has a long history of providing wireless communication solutions and recently decided to focus on working with a few key partners. “We have chosen Solectek as one of our key vendor partners. Solectek has a deep and broad product portfolio and each product line is very competitive in its market segment,” states Jack Van Kessel, President of White Radio. “We had been trying to find a quality distribution partner in Canada for some time and finally found one in White Radio. We realize our success depends on the quality of local partners worldwide. As Canada is a very important market, we will be fully supporting White Radio in all of their efforts,” says Dr. Eric Lee, CEO of Solectek.

White Radio will use its extensive experience in Canadian wireless broadband markets to market Solectek solutions across the country. Beyond its traditional base of Ontario, its footprint now reaches Quebec, British Columbia, and is soon expanding into Alberta, Saskatchewan, and Manitoba.

Solectek products are now available through White Radio. Contact your White Radio representative at 800-565-3586 to order today.
